MEDICINAL.

THOMAS A. EDISON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which give us our diseases. Next to the actual bacteria of disease, the mosquitoes and flies are the most dangerous enemies of man. The mosquito with its bite injects into our veins malaria, yellow fever, and other fatal troubles. The fly, with its spongy feet, collects the invisible germs of disease, spreads them over our food and poisons us with typhoid, cholera and other plagues of the human race.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "If each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in these germs of disease." Every healthy man has five million red blood corpuscles to every square millimeter of blood. The best tonic for increasing the red blood corpuscles and building up healthy tissue is no doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over a third of a century and numbers its cures by the thousand.

Many popular patent medicines or tonics are made up largely of alcohol and will shrink the corpuscles of the blood and make them weaker for resistance. What is needed is an alternative extract, like Dr. Pierce's Golden Medical Discovery, made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking from the food such elements as are required for the blood, also an alternative that will assist the activity of the liver and cause it to throw off the poisons in the blood. When we have accomplished this we have put the system in a fortified condition so strong that it can repel the germs of disease which we find everywhere—in the street cars, the shops, the factories, the bedrooms, wherever many people congregate, or where sunlight and good air do not penetrate.

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

Neglected constipation means headache, heart-burn, sour stomach, foul taste in the mouth, biliousness, pimples, and palpitation of the heart. Constipation is promptly cured by Dr. Pierce's Pleasant Pellets. One for mild cases, otherwise two.

Nasal CATARRH
In all its stages.
Ely's Cream Balm
cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug Store; by mail, Trial Size, 10 cents.

MR. BRYAN CENTRAL FIGURE.

Mr. William J. Bryan was the leading figure in the democratic State convention which met at Omaha, Neb., yesterday. He will be one of the delegates-at-large to the national convention. The platform adopted unanimously by the convention was drafted by him, and represents his views on party policies. The main features of the platform follow:

With an increasing love for the principles of democracy and an increasing confidence in their final triumph, we look upon the present time as opportunity for their earnest and courageous promulgation, with a chief executive who has disregarded constitutional limitations, stirred up antagonism between the races, employed all the powers of his office to secure a renomination and purchased political support by turning the Treasury Department over to the financiers and putting the law department into the hands of the trusts—with such a chief executive and with republican leaders openly and arrogantly in alliance with organized wealth, the country imperatively needs a return of the government to positive and clearly defined democratic principles. Democracy as taught by Jefferson, and exemplified by Jackson, is the hope of the republic, and offers the only relief from the plutocracy which now dominates the republican party, and through that part the country.

Democracy would oppose as inimical to the welfare of the people all private monopolies, and would exterminate them by the enforcement of the remedies suggested in the Kansas City platform. The failure of the present administration to enforce existing laws, or to suggest more effective laws, is conclusive proof that it lacks the desire, the intelligence or the moral courage to attack the conscienceless combinations of capital that have flourished during recent years.

Democracy would relieve the country of the menace of militarism and imperialism by following the example set by this country in its dealings with Cuba, and giving the Filipinos an immediate promise of ultimate independence. The administration of a colonial system according to monarchical principles is repugnant to our theory of government, and cannot be depended upon without the assertion of doctrines which, if carried out, will undermine free government in the United States.

Democracy would restore the tariff to a revenue basis and administer it for revenue only, thus demolishing the legal bulwarks behind which the predatory trusts have found refuge. Protection for protection's sake is an ingenious device for the exploitation of the masses by the privileged classes; it has brought great injustice to the consumers and has been the fruitful source of widespread political corruption.

Democracy would administer the Treasury Department in behalf of the public, not as now, in the interest of Wall street; it would prevent the recoinage of legal-tender silver dollars into limited legal-tender subsidiary coin; it would secure to the people a volume of standard money sufficient to keep pace with the demand for money; it would favor paper money issued by the government without the intervention of national banks; it would resist the attempt to establish an asset currency and branch banks, and it would oppose the loaning of government money to favored banks, a scheme by which the people's money is employed to lay a foundation for a campaign fund and to bribe the financial interest to oppose any reduction of taxation. The present administration of the Treasury Department is progressively beneficial to the capitalistic class and progressively harmful to the producers of wealth.

Democracy would make taxation more equally by collecting part of the revenues from an income tax, secured by a constitutional amendment, and would bring the government nearer to the people by the popular election of United States senators and direct legislation.

Democracy would safeguard the interests of the wage-earner and the artisan by providing for an eight-hour day, by substituting arbitration for strikes and lockouts, and by restoring the right of trial by jury, now suspended through government by injunction.

Democracy would secure to the surviving soldiers and sailors and their dependents generous pensions, not by an arbitrary executive order, but by legislation which a grateful people stand ready to enact.

Democracy would construct an isthmian canal without a violation of treaty obligations and without exciting suspicion among our sister republics of Central and South America.

The delegates chosen by this convention to the democratic national convention are hereby instructed to vote as a unit on all questions, provided that the unit rule may be suspended by a majority vote of the delegation.

Edgar Howard, a member of the resolutions committee, later introduced the following resolution, which was unanimously adopted:

The democracy of Nebraska heralds to the democracy of the nation its steadfast respect for confidence in and loyalty to Nebraska's great champion of pure democratic principles, and bids him

We have a standing offer to wager \$1,000 that it is the only

HAIR TONIC

on the market to-day that will positively stop and cure

Falling Hair and make

HAIR GROW

Average growth 1 1/4 in. per month for twenty consecutive

months.

By permission we herewith reproduce photograph of Miss

Sarah MacComb, a lady who has lived in Chicago all her life

and is well known in the city, especially on the South side.

Her hair before she commenced the use of Danderine would

not reach below her waist, while now it touches the floor

when she stands erect. This remarkable growth is the result

of using Danderine, the grandest of all hair and scalp tonics,

regularly as a dressing.

It Gave Her Hair New Life

and will do the same for you. If you give it a fair trial, Dan-

derine puts new life and vigor in both the hair and scalp. It

makes the hair soft, silky, and there seems to be no limit to

the growth it will produce. There is no other that can be

compared to it, as it is founded on new ideas altogether.

Chicago, Feb. 3, 1904.

Now at all druggists in three sizes, 25 cents, 50 cents and \$1.00 per bottle.
